

Overhead Gantry Crane Cab/Pendant/Remote

Crane Operator (Refresher/Novice/Experienced)

Target Group

A course for candidates wishing to achieve a Nationally recognised operator qualification. Enabling them to operate within the workplace an overhead gantry crane

Aims

The aim of this course is to train selected delegates in the safe operation and effective use of overhead travelling cranes in their workplace. Two separate courses are available to meet the needs of those with floor controls or cab controls. The duration of each programme is dependent upon experience, 1 day for experienced operatives, 2 days for those with little or no experience.

Objectives

By the end of the course delegates will be able to:

- Operate the crane safely in accordance with manufacturers handbook and accepted codes of practice
- Demonstrate an understanding of the controls of the particular model used during the training
- Demonstrate knowledge of the proper use of lifting tackle
- Estimate the weight of loads
- Use appropriate communications
